EXPERIENCE

Fresh Prints | *Campus Manager*

December 2025 – Present

- Managed a sales pipeline from prospecting through order completion, ensuring accurate quotes and timely follow-up
- Built long-term partnerships with campus organizations to drive repeat business
- Optimized a complex multi-stage sales funnel by leveraging CRM data to identify bottlenecks and accelerate the lead-to-order lifecycle.

Tutor | Auburn, AL

February 2026– Present

- Translated complex mathematical concepts in business calculus, including optimization and related rates, into simplified frameworks for business students.
- Facilitated 1-on-1 tutoring sessions, improving student performance through targeted reviews of marginal analysis and calculus applications.

ACADEMIC PROJECTS

Auburn Business Analytics Case Competition | *The Home Depot*

November 2025

- Placed 2nd out of 25 teams in a data analytics case competition sponsored by Home Depot
- Analyzed and cleaned 3+ million transaction records to transform raw data into usable datasets
- Built predictive models to identify customers most likely to purchase Home Depot Protection Plans
- Presented data-driven recommendations to judges and Home Depot representatives

Emory IHI Case Competition

March 2026

- Competed against 100+ peer teams to design a technology-integrated healthcare proposal
- Engineered a 5-year strategic roadmap for a healthcare intervention, utilizing phased implementation milestones to ensure institutional scalability and long-term ROI.
- Designed a proposal for an AI-powered clinical assistant focused on antibiotic awareness, outlining the integration of automated health alerts to mitigate hospital-acquired infections.
